SPECIFICATIONS:

- + Bike bag lock for securing a QL2/2.1/2.2 bike bag to the luggage carrier
- + Quick and uncomplicated locking with one key
- + Compatible with all standard luggage carriers up to 16 mm tube diameter
- + Remains permanently open after unlocking so as not to interfere with the normal attachment/detachment function of the QL system
- + Can be easily positioned next to the existing QL system
- + Can be fitted without tools
- + E124/E124 for additional securing of the roll closure or other objects (helmet etc.)
- + Also available as a keyed alike version with two identical keys (F3915)

Optional accessories: Anti-Theft Device (No. E125 long, E124 short)
